CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholera, Dysentery, Diarrhœa Colics, &c.

—Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy, that we cannot forcibly urge the necessity of adopting it in all cases." From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other remedies had failed."

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell street, Bloomsbury London. The immense demand enables the proprietor to reduce the price; it is now sold in bottles, Is 1½; 2s 9d; 4s 6d and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chancellor Sir W Page Wood stated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the Times July 30th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See Lancet, Dec. 31, 1863.

Dr J Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

The "London Times" and the "Spectator" on Confederation.

Elsewhere in this issue we produce an article from the London *Times* of the 2d ult, concerning the cession of Russian America to the United States and its effect upon British Columbia. The *Times* takes the sensible ground that by Confederating the Colonies England creates them into a nation, which is left to carve out its own destiny. Whether it becomes part and parcel of the United States, or remains independent, is a matter of indifference to the Mother Country after the Confederation is once set on its legs. This is what the Confederationists in this Colony are urging to-day—that, if Annexation is ever attainable it will be only through Confederation, and that the concerted action of the whole of British North America will be necessary to bring it to a successful issue. The London *Spectator* of March 30, assumes that "British Columbia has already joined the Confederation, and that when the Hudson Bay Territory has been purchased, the British possessions on the North American continent will form one State, soon, we hope, to be one nation, strongly allied to Great Britain, but not dependent on her." On the 6th of April the *Spectator* says that "London was startled on Monday by a telegram stating that Russia had ceded all Russian America to the United States. Cessions of territory by Russia are so unusual that the world was ready to suspect a plot, more especially as the telegram added that Sir Frederick Bruce intended to remonstrate, the cession "blocking up British Columbia." It does not block up British Columbia, and the transaction does not matter at all except to Russians, who by it surrender the design attributed to them of conquering the whole world, and to Americans who have to pay half the price of Louisiana for a vast territory producing chiefly ice, otter furs, and Esquimaux. Except to a hunting company, the whole territory is not worth five shillings, and will be a burden on the Treasury of the United States. The only important feature in the business is the evidence it affords of friendly feeling between the Union and Czar Alexander." On the 29th of March the *Times*, alluding to the telegram that British Columbia desired to join the Confederacy, says: "The intelligence of the unanimous vote of union with Canada by the Legislature of British Columbia appears likely to bring to issue at length the long pending question of the Hudson Bay Company. The British North American Bill just passed takes powers for the extension of the Confederation to this Colony, and also to 'Rupert's Land and the North Western territory;' but, as several hundred miles of Rupert's Land—that is, of the Hudson Bay territory—intervene between Canada West and British Columbia, it is apparently necessary for Canada to acquire this tract before she can give effect to the vote of British Columbia. It appears that the course which will be at once the most simple and advantageous both for Canada and the company is to purchase that western part of the Hudson Bay territory which describes the United States' frontier on the south, and the line of the Saskatchewan river and Lake Winnipeg on the north, and which would connect Canada with British Columbia. It is the only fertile and colonizable part of the territory, being about two hundred million acres in extent. The Hudson Bay Company would then be left with their vast hunting grounds in the north and east, the abode of the fur-bearing animals, with their coast line and shore settlements, so as to preserve intact the trade which has always been the staple source of their revenue. It is understood that neither the company nor the Canadians are indisposed to such a mode of arrangement, and it has been suggested that the former could hardly do better than apply the indemnity to be obtained in reduction of the amount of their shares."

NEW YORK, May 20—Booth's diary has been published. It occupies less than half a column of the *Tribune*. It is dated April 13, 14, and 21. It is unimportant, and there is no reason to suppose there has been any of it suppressed. The President authorized the publication. Secretary Stanton furnished a statement of the facts connected with the capture and affirms that the integrity of the diary since the first, as shown in the statement in the diary—'For six months we worked to capture Lincoln. The cause was almost lost; something decisive must be done. I struck boldly and my failure is owing to others who did not strike boldly. I wrote a long article and sent it to the *Intelligencer*, setting forth our wrongs, under date of the 21st.' The diary says:—'I am in perfect despair, am locked upon as a common cut-throat; I have been serving a degenerate country; my action is purer than Brutus'. To tell what I have done fills me with horror. God forgive and bless my mother. To-night, once more, I will try to cross the river. I have a great desire at once to return to Washington and clear my name. God spare me from death as a criminal.'

The *Tribune* says Baker's exciting narrative discloses Mrs Surratt's confession. Baker was concealed. The plot was to capture Lincoln, and she reluctantly yielded to the plot for the assassination. Booth was buried under the old Penitentiary, in the cell formerly used by the Ordnance Department for ammunition.

SAN JUAN, May 21—Last night the Monterey stage left here with a prisoner under confinement for an attempted outrage upon the person of Mrs J. F. Ross, a highly respectable married lady of this place. The prisoner was heavily ironed and placed in the custody of the driver, there being no officer or other passenger on board. As soon as the stage got out of town a few miles it was stopped by a body of armed men, disguised as negroes, who took the prisoner, and some time during the night hung him to a tree, where he was found to-day. He was buried without any inquest being held. The man appears to have been a deserter from the gallant 14th infantry, or from San Quentin, and had been hospitably received by Mr and Mrs Ross at their house for a day or so, which kindness he repaid by a shameful assault upon his benefactress during her husband's absence. This was on Friday afternoon, the 17th instant. Men were out in pursuit of him from that time until he was arrested on Saturday night, somewhere near Gilroy, and brought him into San Juan on Sunday. Yesterday he appeared before the Justice, and stated that his name was Elder Thompson; that he had been a soldier but had discharged himself from the service, and that his object in attacking the lady was to obtain money. He waived an examination, and was accordingly ordered to be committed to jail to await his trial.

The London 'Times' on the Russian Treaty.

The present decade will be memorable in history for the changes it has witnessed in the political geography of the world. The map of Europe has already been transformed. We have a new Italy and a new Germany; perhaps before three more years have passed we may have a new system of States between the shores of the Black Sea and the Adriatic. Though a veil of traditional ignorance still conceals the politics of Central Asia from the eyes of Western nations, we know that Russia is steadily advancing toward our Indian frontier, and may at any moment find a pretext for annexing a fresh province to the east of the Caspian Sea. In America the destiny of Mexico is trembling in the balance, and, while the civil war has failed to disturb the frontier line of the United States, the British Provinces on the Lakes and on the Atlantic will henceforth be united under the common name of "Canada." Another removal of ancient landmarks is contemplated, which directly affects ourselves, and in times past might have been resented as a menace of future aggression. It was announced in our telegraphic columns yesterday that a treaty had been sent by President Johnson to the American Senate last Saturday, "which cedes to the United States, for a consideration of seven millions, the whole of Russian America and the adjacent islands." The Senate has been convened for yesterday to consider the treaty, which, by the Constitution of the United States, requires for its confirmation the consent of two thirds of that body. This is the first time, so far as we are aware, that Russia has ever receded from a territory once acquired, and by this treaty, if it should be ratified, the single exception to the westward course of empire in modern times would be converted into a fresh proof of the rule. Without sharing the excitement which it is said to have produced among British diplomatists at Washington, we cannot but recognize it as an event of considerable importance, attesting, as it does, the mysterious sympathy which has long existed between Russia and the United States, and establishing, as it will, a Republican instead of a "Cossack" power on the northwestern frontier of the new confederation. * * * It is probable—nor is there any wisdom in disguising the probability—that it has been purchased with a view of asserting the claim of the United States to supremacy on the North American continent. The consolidation of Canada and the maritime provinces into a confederacy under the British crown has awakened a groundless but not quite inexplicable jealousy in the United States. American politicians have always labored under the delusion that our zeal for the extension of monarchial or aristocratic institutions is equal to their own zeal for the extension of republican or democratic institutions. While they admire Russian autocracy, and manage to discover strange affinities between it and their own form of government, they fancy that French imperialists and English constitutionalists are in a conspiracy with each other to propagate despotic principles in the new world. In this light they regarded the French occupation of Mexico, and here the presumption was at least plausible; but no such reason can be given for regarding in the same light the union of the Canadian provinces. Instead of rendering them more dependent on the mother country, it will have the very contrary effect, and Canada will be, to all intents and purposes, a self-governing community, with a strong resemblance to the neighboring States of the Union. However, the recent action of Congress proves that some irritation has been felt in the United States on the subject, and it is not impossible that the purchase of Russian America is intended as a sort of counter-demonstration against our supposed aggressive tendencies.

Whether this be so or not, our policy is clear. Since we have no right whatever to protest against an act entirely within the discretion of the United States and Russian Governments, let us not place ourselves in a false position by vain remonstrances. It is said that British Columbia is almost cut off from the Pacific ocean by the occupation of what ought to be a portion of its seaboard. The sufficient answer is that it was effectually cut off before, for America has only bought what belonged to Russia, and no Englishman ever dreamt that Russia would part with it to us. We are materially no worse off than before, while our moral right to our own possessions remains absolutely untouched The case is very different in all essential points from that of Luxemburg, which is claimed as German soil, and contains a German fortress. We have no *locus standi* in Russian America, and by objecting to its transfer we should be committing ourselves to a Monroe doctrine of our own. As for the secret consideration which conjecture suggests to have been given for it, we have no business to assume what cannot be known as a fact—and it is not required to explain facts. Russia may well be willing to cement her friendship with America by accepting a round sum to content herself with a large share of two continents without incurring the suspicion of desiring to win a powerful ally in a coming European war. The aspiration of the United States to absorb the whole of North America is no secret; but that design is not really furthered by this purchase. We retain our hold upon Canada more to please the Canadians than ourselves; and though we certainly shall not imitate the example of Russia by selling it to the Americans, we shall be happy to make it independent as soon as it pleases, and leave it to choose its further destiny for itself. Even our tenure to British Columbia, which has so lately voted for admission to the Confederation, is not prejudiced by the cession of these wastes to the northward. Its connection with California was already much closer than with any of our colonies, and a large proportion of its inhabitants are already American. If these influences are destined to overcome the spirit of loyalty and attract it into the Union, the substitution of the American for the Russian flag on the shores of the North Pacific will but hasten their operation by a year or two. Let us, then, without shutting our eyes to the possible consequences of this unexpected transaction forbear to fasten upon it a hostile construction, or to insist upon rights and interests which are incapable of being maintained.

The Future of Great Britain.

A San Francisco paper contains the following truthful article: It is curious to observe how anxiously in certain quarters every piece of intelligence which seems to tell against Great Britain is welcome, exaggerated, and extolled as a world's triumph. To judge from the habitual tone of some journals, Great Britain is and has been the world's curse, and anything which has, or promises to have, the effect of lessening British influence in the councils of the nations is to be interpreted only in the light of a worlds blessing. A difficulty arises in the Northwest of Europe. Territory is forcibly wrested by a stronger from a weaker Power, with whom at the time Great Britain is on the most friendly terms, and to whom she is even bound by family ties. Great Britain remonstrates—remonstrates vigorously; but does not choose to go to war in support of the principles which she righteously advocates. The only inference which is drawn is that Great Britain is strong enough to speak, but too weak to act. The Danish crown is weakened; Schleswig Holstein goes to Prussia, and Great Britain submits, because she cannot help it. A war breaks out in Germany. Hanover, the ancient seat of her present royal line, is absorbed by a more powerful neighbor, and her reigning family is as coolly dismissed as if they had occupied no higher position and possessed no higher rights than those of domestic servants. Great Britain, for wise reasons, does not choose to involve herself in war in defense of the rights of a cognate branch of her royal house. She does not, the world says, because she cannot, A cry, not without reason, is raised for Parliamentary Reform. Demagogues deliver inflammatory speeches to excitable and excited multitudes, Difficulty is experienced by both the great parties in the State in bringing the Reform question to a satisfactory issue In a free country, and under a constitutional government, where difference of opinion may not only be entertained but expressed, such difficulty is as natural as sunlight. The friends of Great Britain, however, can find in the present Reform excitement indications only of inevitable and destructive revolution, signs only of certain and swift-approaching decay. British statesmen can well afford to be indifferent to all such interpretations of their national affairs. They know, and know well, that, in spite of feeble and foreign-led Fenian insurrections, and clamorings for Reform, the country never was so healthy and prosperous, and certainly never had the privilege of contemplating so much greatness and glory in the immediate future. While the entire European Continent is in a ferment and liable to be involved in war at any moment, Great Britain, with the single exception of a trifling difficulty with Spain, sits serene and hopeful on her sea-girt throne. Financially, she is all that could be wished, her annual budget revealing a surplus of upwards of £2 000 000 in her favor. Her large and increasing population is well and remuneratively employed; her numerous colonies are increasing in population and in wealth. India is coming more and more under the influence of civilization; railroads, telegraphs, and other modern appliances are rapidly utilizing her almost inconceivable resources; and the time does not appear to be far distant when that great empire which once recognized the sway of the Mogul shall prove not only the brightest and most valuable, but the safest jewel in the British crown. The sun of prosperity is again shining on her West Indian possessions. Her North American Colonies are about to be united in one grand Confederation, and the foundations are being laid of what may prove to be the future Russia of the great Western Continent. Australia grows apace, and bids fair to be a second Europe in South Eastern waters. With the entire North American Continent imbued with British sentiment, and speaking the English tongue, with a prosperous Australia similarly circumstanced, and clinging to the Mother Country as the child clings to the parent, and with all the resources of India at her service, who shall say that the star of empire has deserted, or will soon desert, the British Isles? No nation that ever existed has ever been able to indulge the prospect of so brilliant a future. The Parent Country may become small in comparison with her bulky and powerful descendants, but the name and the influence of the little islands of the sea are alike imperishable.

A New and Grand Epoch in Medicine.—Dr. MAGGELSEN is the founder of a new Medical system The quantitative, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that Maggiel's Billous, Dyspeptic and Disorder Pills are sure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin Maggiel's Salve is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

Flesh-Devouring Maladies.—Of these Cancer is one of the most horrible. As soon as there is the slightest reason to suspect its presence, resort to **Bristol's Sarsaparilla.** Whether the external appearances that excite suspicion are Cancer or not, they assuredly betoken the presence of unhealthy matter in the blood; and this unequalled depurative will eradicate them, by eradicating their causes in the circulation. Every tumorous, cancerous and ulcerous malady, and every scrofulous, erysipelatic, scorbutic and leprous eruption, can be controlled by this wonderful detergent. It may be called almost a certain remedy, which is more than can be said of any other known medical agent. By using **Bristol's Vegetable Pills** at same time with the **Sarsaparilla**, a cure will be much hastened. 517

Ponce de Leon on Perfumes.—This celebrated Lieutenant of the great Columbus pronounced the flowers in the everglades of Florida "the most fragrant under the skies." From these odor-becoming blossoms **Murray and Lanman's Florida Water** is prepared, so that the fame of its fragrance may be said to date back to the days of the great navigator, who "gave to Castile and Aragon a New World." The blended breath of a conservatory of tropical plants in full bloom, is exhaled from this delicious and refreshing Water. When diluted, it purifies the complexion as well as perfumes the skin; nor could any Sybarite covet a rarer luxury than a bath fragrant with its delicious aroma. ☞ Purchasers are requested to see that the words "FLORIDA WATER MURRAY AND LANMAN, No. 69 Water street, New York," are stamped in the glass on each bottle. Without this none is genuine. 530

GOUT, RHEUMATISM, SCIATICA,

LUMBAGO & NEURALGIA.

Farnan's Specific has stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as COMPLETE as it is RAPID, and, strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the fields of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled; and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.

DR HOSTETTER'S

STOMACH BITTERS.

The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties

Invigorates the System

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame. Does this victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal forces which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effect, be fily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged.

Dr Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of females resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and derangement to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers as well as strengthens the body, and its use is never followed by any reaction.

From the Sandwich Islands.

The schooner Alberni, Captain Rathbun (formerly of the Domatilla) arrived in the harbor from the Sandwich Islands yesterday morning with a cargo of sugar and molasses, consigned to Janion, Green & Rhodes. The following is her memoranda: Left the islands April 20th; first four days had strong winds; had light winds for the next week; since that time had gales and head winds; sighted the west coast of the Island on the 24th May, Cape Flattery on the 25th, and entered the Straits on Sunday morning, the 26th. Through the courtesy of an officer of the schooner we have Honolulu papers to 24th April.

"Kit," for thirty years a pilot at the Islands, died lately.

A steam boiler, on a scow that got adrift in October last, was seen floating in mid-ocean as late as January last by the schooner Milton Badger.

The right, title and interest of Messrs Walker, Allen & Co. in the Onomea Plantation was sold at auction by order of the assignees. The mortgage on the place was to secure the sum of $64,000. No bidders present seemed desirous of purchasing at a higher figure than the mortgage, and the Plantation was struck off to W. C. Parke, Esq.

The British bark Eastfield, Capt. Worth, 80 days from Manilla, with 178 coolies and an assorted cargo of China goods, had arrived at Honolulu. The vessel experienced much calm weather, and had a tedious and irksome voyage. Eight of the coolies died on the passage.

THE RACES were well attended yesterday. A large number of ladies graced the hill with their presence, and the sport was of a very interesting character. Money changed hands on the result, but the wagers were generally light. Messrs J. D. Pemberton, Harris, Hutchinson, Elliott, Reynolds and others of the Committee were indefatigable in their exertions to ensure success. For the Hurdle Race, Howard's 'George,' Green's 'Gray,' and Murray's 'Bobby' were entered. The first heat was won by 'George.' In the second heat 'Bobby' was withdrawn, and the gray came in first; but as he had neglected to jump the second hurdle, the prize was awarded to 'George.' The Pony Race was between Richardson's 'Punch,' Vaughn's 'Lizzie,' and Howard's 'Cafeaulait.' The first heat was won by 'Cafeaulait,' and the second was won easily by 'Punch,' when 'Lizzie' was withdrawn. The third and deciding heat was won by 'Cafeaulait' with scarcely an effort. To-day the races will commence with the Queen's Plate, for which Hutchinson's 'Butcher Boy,' Mills' 'Boston Colt,' and Shirpser's bay mare 'Lucy' are entered. The second race will be the 'Scurry Stakes,' for which the following horses are entered: Hutchinson's 'Limber Jim,' Laing's 'Lucy,' and 'Howard's 'Cafeaulait.' For the Innkeepers' Plate, Shirpser's 'Lucy,' Vogel's 'Lucy,' and Spurlock's 'Jack.' For the fourth race, Draymen's horses, there are no entrances. The races will commence at two o'clock precisely. Stakes will be handed over at the St George Hotel, on Wednesday evening, and parties who have subscribed money are requested to pay forthwith to the committee.

DESTRUCTION OF IDAHO CITY BY FIRE—About 11 o'clock yesterday morning, Mr S. E. Briggs, Wells, Fargo & Co.'s agent in this city, received a dispatch from the San Francisco office, informing him of the total destruction of Idaho City by fire on the 13th inst. The news spread like wildfire throughout the city, but more particularly among the merchants, who, we learn, have large amounts of money due them from that quarter. The only hope is that the fire proof cellars have escaped the conflagration. Many of those who have large amounts due them in Idaho City became somewhat skeptical about the veracity of the telegram, believing it to be almost an impossibility for the news to reach San Francisco ahead of Portland. There can be no doubt but that the news is o'er true, and we may expect to learn the particulars soon. One noticeable feature of the whole thing is that this fire occurred on the second anniversary of the first—*Oregon Herald, 24th inst.*

REAL ESTATE TAX INQUIRY.—The commission appointed to take evidence as to the sale of real estate for taxes on the Island met again yesterday. Important evidence was taken, when the commission adjourned until a future day.

ALLEGED SMUGGLING—Vincent Baromovich, captain of the trading schooner Gazelle, was brought before Mr Pemberton yesterday on a charge of having smuggled three casks of liquor to the mainland of this colony at a place called Kit-kat-lah. The complaint was preferred by Mr Wm. H. McCrea, of the Customs department, and was supported by the evidence of Michael Nenovitch, a hand on the schooner, who testified that he saw the liquor (rum) landed at the place indicated in the complaint. Another witness, also a hand in the schooner, swore that the liquor was landed at Cal-chee-na, in the Russian Possessions, and that none went ashore at Kit-kat-lah. Messrs Drake & Jackson, who appeared for the defence, asked for a postponement of the case until to-day, which was granted.

LEECH RIVER—The mill runs only half a day at a time, and the miners are still exhibiting the patience of Job in waiting for water to wash the dirt. A good prospect has been raised in the bank back of Bacon Bar; but for want of water the dirt cannot be washed at present. Five bears have been shot within ten days past near the river and their meat packed into camp. A man whose initials are 'P. J.' was on Friday notified by a Vigilance Committee that he was about to be tried for theft; he made tracks for Victoria during the night. A prospecting party that had gone over the hills was expected to return on Sunday.

DREADFUL DISASTER AT TILAMOOK BAY.—A gentleman who arrived on the Fideliter informs us that on Thursday last a boat containing an American officer and six attaches of the surveying expedition was swamped on the bar of Tilamook harbor, and all drowned save one who clung to the boat. The party were surveying and marking out the channel. Tilamook Bay is 40 miles south of Columbia river.

VICTORIA HOUSE—Just received at this Establishment by Express, the prettiest Bonnets and Hats ever imported into the colony and of the fashions now prevailing in Europe, the goods having only left England on the 17th March; also, the latest styles of Trimmings, Lace Shawls, Silk Mantles, Jackets, Brilliants, French Prints, and every description of Spring Goods. *

ARRIVAL FROM PORTLAND—The steamer Fideliter, from Portland, arrived at two o'clock yesterday afternoon, with a number of passengers and considerable freight. She is announced to leave Victoria for Sitka on Wednesday evening, carrying freight and passengers. A quantity of goods marked for Sitka came on the Fideliter from Portland.

FROM THE SOUND—The steamer New World arrived from Puget Sound last evening at 7 o'clock bringing a number of passengers and a mail. The political canvass progresses vigorously. A convict named Wilson, sentenced to five years' imprisonment, has escaped from the territorial jail.

THANKS.—We are indebted to H. P. Walker, Esq., for English papers to April 6th; to Captain Kohl for San Francisco papers to May 18th; and Dr Cool, for Portland papers to the 22th May. These gentlemen will please receive our acknowledgments for the courtesy shown.

MAIL AND EXPRESS—The Fideliter brought a late English mail, and an Express from Portland. Captain Kohl brought the bags on the Montana to Portland, where he placed them on his steamer and brought them on to Victoria.

RACE DINNER—The annual race dinner will take place at the St George Hotel, at 7 o'clock this evening. Tickets have been fixed at the reasonable rate of $1 each, and a jolly crowd will be in attendance.

RETURNED—Among the passengers on the Fideliter yesterday we were glad to observe the familiar countenance of H. P. Walker, Esq., who has just returned from a visit to England.

BLUNDER—Owing to the blundering of the compositor, three errors occurred by the transposition of words in yesterday's leading article which rendered that portion rather ambiguous.

REGATTA HATS.—Mr Adams, of Government street, has received, per Princess Royal, a splended assortment of men's and boys' boating and regatta hats.

RAIN WANTED.—Farmers from Saanich report an unusually dry season. Everything, thus far, looks promising; but full crops are not expected unless more rain falls.

THE ACTIVE.—This steamer left Port Townsend at three o'clock on last Wednesday afternoon for San Francisco, and probably reached that port today.

FAT CATTLE.—Forty head of some of the finest beef cattle ever imported to the city, arrived last evening from the Sound, for Hutchinson & Co., Wharf street.

VICTORIA RIFLE CORPS.—Class firing, Tuesday and Friday, at 4 p. m. By order, J. GORDON VINTER, Lieut. and Adjt.

BOYS' STRAW HATS.—Mr Adams, of Government street, has received a splendid assortment of mens' and boys' straw hats. *

THE Beaver has been beached at the Reserve for an application of the scraping iron.

THE sloops Shark and Red Rover sailed yesterday for the North West coast to trade.

A Revolution in Cathartic Treatment.—Thousands of persons regard aperient pills as a species of medicine that destroy their own efficacy by repetition. In other words, they suppose that, however moderate may be the number taken at first there is no escape from wholesale doses in the end. **Bristol's Sugar-coated Pills**, however, are a grand exception—the only one—to this general rule. The doses are always moderate, four being the usual number of pills for an adult, and six the largest dose. The effect they produce is permanent, and it is not necessary to continue them, in order to prevent a relapse, for constipation, sick and nervous headache, bilious disorders, chills and fever, stomach complaints, general debility, colic and the irregularities of the female system, they are a specific cure. This may be received as a rule to which there are no exceptions. They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood, Bristol's SARSAPARILLA should be used in connection with the Pills. 416

HOLLOWAY'S PILLS.—Everybody's Wish.—One of the many causes of the eminent success of this medicine is the quiet, purifying effect it exerts over the circulation; it watches over the new blood forming from the food, invigorates the distribution of the mature blood, and casts out the old which has done its duty, and whose further presence becomes detrimental. By taking Holloway's Pills, agreeably to their accompanying instructions, every person may attain the best permissible state of health without interfering materially with his usual habits, pleasures, or pursuits. The weak and nervous will find themselves invigorated by judicious doses of this medicine, and by steady and persevering attention may confidently hope for increased strength, greater comfort, and better health.

Summary Court.

[BEFORE CHIEF JUSTICE NEEDHAM.]

MONDAY, May 27, 1867.

McKay v. Southgate—Action brought to recover the sum of $100 for use of plaintiff's rooms and for refreshments supplied by order of Sproat and Young's Committee in the contested election with DeCosmos and McClure in 1865. Plaintiff and other witnesses were examined in support of plaintiff's case, from whose evidence it appeared that the defendant was the Chairman of the Election Committee, and plaintiff proved distinctly that a resolution was passed by that Committee appropriating $100 to pay plaintiff for the use of his room and refreshments. It transpired, however, on questions being put from the bench, that plaintiff was merely a member of the Committee and that he had subscribed $10 towards the election fund. Upon this the Judge held that plaintiff must be non-suited, his action not being maintainable at law; but he also stated that plaintiff had his remedy against defendant and his co-members of the committee by filing a bill in equity, and that the committee were in honor bound to arrange the matter without it being brought before him again. Mr Bishop appeared for the plaintiff and Mr Green and Mr Pearkes for defendant.

McGowan v. Foster—Suit brought to recover $220. After a long argument it was agreed to try the case by jury on Monday next.

Letter from New York.

(San Francisco Bulletin Correspondence.)

NEW YORK, March 31, 1867.

SPREAD OF CORRUPTION IN THE LEGISLATURE—TRIUMPHS OF THE LOBBY.

If a tithe be true of the corruption charged upon the members of many of our Legislatures, and if they represent the average morality, the integrity and strength of principle of their constituents—which last, far be it from me to admit—then, indeed, must it be confessed that civic virtue has sadly declined since the last generation, and that we of this are wholly given over to rottenness and all manner of abominations. This vice of bartering votes for money or the promise of political preferment has not extended in its most brazen phase to some few of the Legislatures, and to their credit, be it said, has gained but little sway in the New England States, but in most it is rampant, and so common has it become, that men now seek the laborious and ill-paid position of Assemblyman or Senator as a valuable franchise, the profits of which they calculate with as much nicety as does the trader on his wares. This seems especially true in the two great States of New York and Pennsylvania, and the once staid and sober old State of New Jersey sandwiched between them, has imbibed the taint and is now as bad as the worst. In these States, where there is a great concentration of population and capital, which disburse annually so many millions of dollars that a few hundred thousands diverted to private uses are scarcely missed, which contain two such immense cities as New York and Philadelphia, so fruitful of franchises and "good things" as fairly to make the mouths of speculators and lobbyists to water, corruption has been reduced to a system corrupters has become a profession, with its greater and its lesser lights, its able leaders and adroit juniors, its "retainers" and its contingents. Members are ticketed at their purchaseable value, and but too often have their recognized go-betweens or brokers, through whom alone approaches are made, and whose pledge is accepted as binding upon 'their man.' The lobby discuss the value of members, and beat down their price like the veriest old woman squabbling in market over the price of garden 'truck.' Woe to the greenhorn who has not yet been posted as to the ruling rates for votes, and in his ignorance cuts under the market. He is spoken of with with contempt, even by his buyers as 'a cheap man.' You hear from the lobby such remarks as, 'Oh! Jones is a $100 man, but it will take big money to fetch Simpson, and as for Timmins, he can't be bought on small jobs. It is only on the big schemes when the price runs into the thousands, that you need approach him.' If a member has once been bought during the session, it is soon known to the whole fraternity of lobbyists, and the price carefully ascertained and recorded. After that there is no hesitation in negotiating with him whenever his vote is necessary. You in California had some little experience in this kind of business, particularly in those good old days, when water-front extensions and bulkhead bills threatened you; but the California lobby are bunglers, mere tyros, compared with the accomplished and seductive masters of the art at Albany and Harrisburg. Never were they in such feather as now; never had they so fine a season as this winter; never were jobs so abundant, schemes so gigantic, employment so steady, profits so heavy.

PROFITS OF THE LOBBY—WHAT IT COST TO CARRY ONE BILL.

The winter campaign of 1867 has not yet closed, and so we are unable to foot up the books. We can only estimate the gains from the briskness of the trade. But the lobby returns of last year are out, and from them we may gather a pretty clear idea of the profits of the business. That you may clearly understand the operations, I should tell you that the N. Y. Central Railroad stretching across the State from Albany to Buffalo and Niagara, and upon which numerous thriving cities and towns are strung, as jewels upon a necklace, is an immense corporation whose receipts aggregate four or five millions of dollars a year, and whose stock is one of the fancies of Wall street with which the speculators have long been playing battledore and shuttlecock. This company is forbidden by their charter to charge more than two cents a mile for way passage. Ever since the war began they have been seeking authority to raise their rates to three cents; this year they raised to two and a half cents per mile. After great labors, they succeeded in securing the passage of the necessary law by the Legislature of 1866, but the Governor vetoed the bill, and they hadn't money enough to pass it over his head. It is now a matter of calculation that this company have spent over half a million dollars to promote or prevent legislation. The amount expended on the last legislature and its barnacles somewhat exceeded $100,000. The historian of the campaign avers that it cost forty odd thousand dollars to carry the bill through the Senate. It received 19 votes in that body, of which 13 had to be paid for, and some of them at ruinous rates. The price of votes varied according to circumstances $25,000 was the maximum, and 2,000 the lowest. The greedily ones sold early and went cheap; the long-heads made a waiting race and won heavily.

HOW MANY WERE BOUGHT AND WHAT WAS PAID FOR THEM—THE MARKET STIFF.

The last man commanded his own price—$25,000 was the figure. The cheap fellows, part of whose fee was contingent on the passage of the bill, denounced him for his rapacity, he was risking their fee by holding out for such an unreasonable sum. A very few Senators voted for the bill without stipulating for their reward in advance, relying upon the 'gratitude' of the Company for compensation for their wear and tear of conscience, and they were not disappointed. Corporations have no souls, yet they can be grateful. It cost $12,000 to get the bill reported by the Railroad Committee to the Assembly. Agonizing appeared the struggle, grave the deliberations, long and exhaustive the discussions to arrive at a conclusion. It was only to give time for 'the negotiations.' Between 40 and 50 votes were paid for, at prices varying from $300 to $2,500 each. The remainder of the $100,000 was given to the Lobby, of which the ablest staff was retained. The bill is up again this year—the Lobby is as busy as bees, but votes are not so high as last year. The market may be quoted as comparatively flat, for little has to be paid now for conscience; and, besides, many of the heaviest purchases of last year have been selected, and it is claimed as hardly fair that they should demand a second price for an article they have already sold once. Wherefore all this infamous corruption? what the inducement for all this monstrous expenditure? it may be asked.

HOW DIRECTORS MANAGE THEIR TRUSTS—SLAUGHTER OF THE INNOCENTS.

Are the officers and directors of the Company so zealous for the promotion of the interests of their stockholders? Not a bit of it. It is their individual profit they are seeking—it is to fill their own pockets that they are thus recklessly squandering the Company's earnings, and draining 'the secret service fund.' It has been the custom for heavy stock operators to struggle and intrigue and cozen for positions on the Board of Directors of the leading railroad companies whose stock and bonds form the staple of the transactions in the Stock Boards, that they may so mould the management as to depress or uplift the stock suddenly; and they are just as willing to depress as to elevate it. This gives them 'the inside track,' and being generally daring operators and commanding immense capital, they can safely enter the market in advance of their predetermined action in their Company Board, and buy 'long' or sell 'short,' according as the move upon which they have agreed, is calculated to raise or bear the stock. Their intentions are of course kept a profound secret from the rabble of stockholders and the outside public, until they are all primed. Then the signal is given—the mine is fired and the flutter of lame ducks is heard all through Wall street. If they have decided on bearing their stock, God help the holders who have bought on 'margins,' and nobody here buys on anything else.

A SMASHING JOB—A MILLION BAGGED.

'The Street' is still ringing with 'a little operation' of this character, in which the Directors of a favorite company unexpectedly reduced the dividend to one-half the usual amount—the victims say without the slightest necessity, as the Treasury was plethoric—fully able to stand the usual dividend. Down—down, went the stock; now with a glide, again with a jump, until men started and holders were paralyzed to see a stock, long quoted at 220 to 260 sink to 119. The Company realized a clean million out of one operator who had brought 50 000 shares at 200, and obtained advances on a large portion of them at something near that figur; and he paid it like a man. The destruction by scattering shot, among the smaller birds in the flock—the tomtits of the street—was mournful to witness. Their lamentations still stun the public ear. A similar game has been played in almost every leading railroad stock—the Directors sit like spiders in their coverts watching a favorable opportunity to pounce upon their victims; and yet "the street" and outside buyers will dabble in these stocks, "going it blind," and before they get through they are raised out of their boots. Hence it is that so few Wall street operators of moderate capital survive much over a year or two. The millionaires in the Directory take it all.

LOUIS A. GARNEIT.

LOUIS A GARNETT.....President and Manager
JOHN HEWSTON, JR.....Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in so far in reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of materials—is lower than in any other part of the world, and secures to the mining interest of this coast an increase in both the mining and commercial value of Bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@2000 parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@850 parts gold, 11 cents per ounce.

For refining bullion from 850½@949½ parts gold, 14 cents per ounce.

The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been posited for coinage:

850 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11 cents.

At 805 par to equal San Francisco A. & R. Works return refining charge of 8 cents. mh18, 2p3m

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensible article for Sprains, Scars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT
Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wm. Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

CURES AND COMFORT FOR THE BED-RIDDEN.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,		Sore Throats,
Bunions	Elephantiasis,	Skin Diseases

San Francisco Assaying —AND— REFINING WORKS.

No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Co.,)

CAPITAL STOCK, - - - - $1,000,000.

Directors:

JOHN PARROTT, CHAS. E. McLANE,
WM. C. RALSTON, A. HAYWARD,
LOUIS A. GARNETT.

LOUIS A GARNETT.........................President and Manager
JOHN HEWSTON, JR.............Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One eighth of one per cent (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold. 2 cents per ounce.

On bullion from 300½@600 parts gold, 4 cents per ounce.

On bullion from 600½@750 parts gold, 6 cents per ounce.

On bullion from 750½@919½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@850 parts gold, 11 cents per ounce.

For refining bullion from 850½@949½ parts gold, 14 cents per ounce.

The charge for coinage is one half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been posited for coinage:

830 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11 cents.

at 865 par to equal San Francisco A. & R. Works return refining charge of 8 cents. m18, 2p3m

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Barns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1, 1865.

It's an admitted fact that the Mexican Mustang Linament performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel plated engravings, bearing the signature of G. Wm Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the op.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
